Administrator Stoker:

I personally appreciate your travel to Arizona very much. Your willingness to meet face to face, to engage directly in problem-solving, and to interact with Arizona stakeholders as well as the Arizona Department of Environmental Quality is refreshing and benefits our mutual mission to protect human health and the environment. For example, your direct and personal involvement with the international outfall interceptor in Nogales and the cross-border wastewater flows in Naco has been a catalyst to progress on these decades-old problems.

Your approach and accessibility have breathed new life to cooperative federalism between Arizona and Region 9 and I deeply appreciate it. For Arizona's sake, I hope you continue keeping a busy travel schedule - we appreciate it.

Lastly, I'd like to share a frequent refrain from my deceased father, Rev. Manuel Cabrera. He said that "information taken out of context, can be used as a pretext for any subtext that you choose". And the only correct context for your busy

travel calendar is that you enjoy and are effective at solving problems all across the region...and that's simply not something that anyone can do nailed to a desk.

Best regards,

Misael Cabrera
Director
Arizona Department of Environmental Quality

Misael,

Great seeing you today. Here is the IG Report that came out last Thursday.
